FREE SELF-CHECK CHECKLIST

Fire Extinguisher Monthly Self-Check

The exact items NFPA 10 expects a facility to check monthly, on top of your annual professional service. Takes under a minute per extinguisher.

Recommended frequency: Monthly

- [ ] Extinguisher is in its designated location, unobstructed and visible
- [ ] Pressure gauge (or indicator) reads in the operable range
- [ ] Pull pin and tamper seal are intact
- [ ] Nozzle and hose are unobstructed and free of damage
- [ ] Shell shows no corrosion, dents, or visible damage
- [ ] Inspection tag is present and up to date
- [ ] Mounting bracket is secure and at the correct height

Note the location/ID of any extinguisher that failed a check above:
